Mr. Reader, formerly of the Business College of this city, returned here last week on a visit to his friends. From his appearance we judge Quincy, Ill., agrees with him.

The Concert given by Boon & Sand, assisted by amateurs, on Saturday evening last was well attended. The concert gave satisfaction and was good. The net proceeds were \$50.00.

An error occurred in the business local of Persons & Wilson last week. Instead of mixed geese and ducks it should have read mixed geese. We believe they are generally preferred separately by good people.

Lost Deer.—We are obliged to leave out the advertisement of E. R. Shanahan & Co., announcing another receipt of new winter goods. Let their patrons bear these fresh goods in mind. It will pay.

Mr. John Houch has our thanks for some very fine champagne. Mr. Houch had a quantity of deer, in all its various shapes, to sell by the barrel or gallon. Call on him at the Market House.

The Presbyterians have not sold their old church, as we announced last week. We make this correction to the members of that church, who sold as they did not sell the church, and if we had done so they would have the money.

The Lecture room of the Presbyterian Church is plastered and ready for putting in the seats, etc. It is a room 30 by 40 feet and very fine. It is expected that the new seats for the Church services will be ready after New Year's.

Mr. C. M. Gallup, Jr., is meeting with unexpected success with his Illustrated History of the Bible. He has already sold over 80 copies. There is no wonder in the matter for it is a work that bears its own recommendation on its face.

The Board of Education have purchased for the High School of this city a Hectograph, an instrument to demonstrate the motions of the most important planets around the sun and the motion of the moon around the earth and sun. The cost was \$50.

What's in a Name.—Our Postmaster, Mr. Weirich, was recently notified by the Post Office at Tiffin, Ohio, that the name of the Postmaster of Tiffin was not Weirich, but was Levi Weirich, while the Leader had it Weirich. When he was appointed postmaster, the first paper gave the name as Weirich and the latter as Weirich. Such is honor in the papers.

Stock Fair.—We call attention to the circular of the Managers of the Stock Fair given in another column. It will be seen that the premiums offered are very liberal, and such as to make it worth while to exhibit stock. The matter is being pushed vigorously by the Superintendent T. H. Bagby, and members of the executive Board.

Legal Holidays.—Under the act passed by the Legislature of Ohio, February 13, 1870, the Monday succeeding Christmas and New Year's will be observed as legal holidays. Notes falling due on either of those days will be payable on the Saturday previous. We suppose that most of the business places will be closed on these days.

To Be Closed.—On Sunday last, petitions were circulated in the churches, under discussion on the subject by the different Clergymen, asking the Mayor of the city to carry out the requirements of the law, showing all seasons on the Sabbath Day. It was unanimously agreed. Subsequently the petition was presented to the business men of the city, and generally signed.

NO. 4 FIRE COMPANY.

Independent Fire Company, No. 4, of Tiffin, Ohio, was organized in the year 1858, with about 15 members.

At that time our Fire Department was in a very poor condition, and the machinery were then owned by the city were of little value for fire purposes.

The company immediately procured the hand machine. Addressed to the company were without means of procuring the hand machine. The machine was a first-class hand engine, one of the best in the State. By personal experience and much study, the company finally paid in full for it and procured proper hose and carriages and hose. These expenses were very great, and were met by the company annually by their "Fair," which soon became one of the "institutions" of the city. The company, also, during the first five or six years paid their expenses—such as rent for house and repairs of machinery and hose, etc.—amounting to several hundred dollars each year. The company in the Fall of 1865, having by that time increased their number to sixty odd members, determined to procure a "Steam" engine. The citizens responded liberally to this proposition, the company's property was purchased by their hand engine, and in February, 1866, obtained the "Steamer," "Adriatic." It then became necessary to procure new hose and carriage, and the company was established until all this was accomplished. The City Council having since erected for the use of the company their present engine house, the company stand now, as always, ready for the protection of the property of our city from the devouring element. It is useless to speak of the efficiency of the organization—it has often been acknowledged by our citizens, and these acknowledgments are appreciated by the company. All the money that the company have contributed to the company has been faithfully kept, and appropriated for the purpose for which it was given. The company again ask the favor of the citizens at their coming Fair, which we intend making pleasant and attractive with good performances by the Dramatic Troupe from Cincinnati, and the best of music. There will, also, be a splendid display of the Lottery, drawn at the closing of the Fair. No goods will be offered for sale in the Hall, excepting that old Dan will be on hand with his poyota and pea nut stand.

THE "HOME CIRCLE."—This first-class literary paper will commence on the first of January, 1871, its third volume, and first year, greatly improved, with new heading and new features. The corps of contributors to the Home Circle comprises the best writers of the day. Besides the splendid illustrated stories of sea and land adventures, anecdotes, &c., the Home Circle contains several very interesting and instructive features. The Home Circle has an enormous circulation and is gaining more friends daily. In order to maintain this enormous circulation, and to increase the value of the paper, the publisher has put the price at the remarkably low figure of only \$2 a year, and in many cases, larger, better and more interesting, in every respect, than any \$3 weekly paper published at the present time. The club prices are \$7 for four subscribers a year, and \$15 for a club of ten, besides one gratis. The first number will be sent free to the paper, by all the newsdealers in the United States, as well as the 10th of December, for only 5 cents. Sample copies will be sent free to all who wish to see the paper, by addressing F. G. Mason, 47 Summer Street, Boston, Mass.

The Wallace Sisters Troupe gave their entertainment this week, in National Hall. It is a first-class company, and the greatest satisfaction was expressed by the audiences. Mr. Villa, in his different characters, evinced a thorough understanding of his parts, and the performance was a success. The Wallace Sisters are superb—versatile, pleasant, and with vim. Mr. Webster, an original comedian, cannot be beaten. We hope the company may visit Tiffin again.

Clubbing Rates.—In the paper of December 7, our Club List was published, and the figures got slightly mixed. Put some papers with the Tribune higher than they ought to have been and others lower. It is corrected now, and all can see the exact price of the paper.

If you want to exchange property, or to borrow money, advertise in the Tribune.

FIRE DEPARTMENT FAIR.

The Fire Department have been hard at work, and all the arrangements for their Fair have been completed. The goods have been obtained and are all splendid specimens in their line. It was found necessary to run a Thousand Dollar Lottery, and besides these there will be several minor lotteries. They have secured a large collection of Oil Paintings, from the hands of a first-class artist, Kollig, which will be on exhibition, and for sale cheap. In the hall, all those wishing to purchase a gem for their parlors will be well to inspect this collection. There will be a magnetic graph in full operation in the hall, which will be open to the public for inspection, and messages will be sent for the small sum of ten cents. The committee on amusements have succeeded beyond expectation. They have secured the services of a celebrated gymnast, acrobat and tight-rope performer, Wm. Kelly, late of Lent's New Circus, whose performance has astonished audiences in all the large cities of the United States and Europe. Also Billy McCarty and J. Fitz, the justly celebrated prince of song and dance music, who will give a grand concert of songs, dances, and songs and dances, from the Theatre Comique, Toledo, O. The exhibition given by these three men is well worth three times the price of admission. New stars will be introduced as the fair progresses, of which due notice will be given hereafter. Don't fail to go every night, as there will be an entire change of programme each evening. Tickets in the \$1,000 lottery are now for sale, and can be procured by any one of the committee. Admission to the fair, 10 cents.
